

Snowball

Your pieces are to the most part cut larger, therefore you must cut each to size.

Cut one 6 ½” square of background and 4- 2 ½ “ squares.of contrasting fabric.

Mark a line on the wrong side of fabric diagonally on each 2 ½’ block and place each on the corners of the background block so that each line goes from side to side right sides together.

Sew one 1 needle width away from the center line toward the corner and then cut the outside piece ¼’ away from the line. Press and now you have your snowball block. Place in the center of your 12 ½’ block for the January block.
