

# Frisky Fe-line

a line drawing with fabric

October 16

## Supply list:

- 9 - 5" squares that work well together (avoid dark fabrics since you will be fusing black onto the piece.) If you want to get a start and avoid bringing your sewing machine, sew the blocks together in a large 9-patch.
- a piece of black fabric approximately 9x12" with steam-a-seam 2 fused to the back
- pins, paper scissors, fabric scissors

This technique is inspired by a class I took with Laurie Ceesay who has designed several portrait quilts from line drawings. I have been exploring other types of line drawings that would work for this technique. Below are a few ideas I have found on-line.
